

John Martin
Director – Sales, Tomoye Corporation

John Martin currently leads Tomoye's Sales Team with a focus on:

- **US Federal Government**
- **Private Sector Companies based in the United States**
- **Rest of World Organizations**

Tomoye is a leader in the Knowledge Management and Community of Practice space and is the software of choice for the United Nations, World Bank, The Smithsonian, The Canadian Government, Departments within the US Army, US Navy, Office of Secretary Defense and other agencies within the US Federal Government.

John has extensive experience in benchmarking and tracking Knowledge Management initiatives throughout Canada and within the United States. Through his outreach efforts he has gained a wealth of knowledge concerning implementations of Communities of Practice and has acquired lessons learned that can help other organizations succeed.

John is a veteran of the software industry coming to Tomoye from NetManage, Inc of Cupertino, CA. At NetManage, John was responsible for the North American Partner organization from 2001-2002. NetManage is an expert in host access and host integration solutions. NetManage has mastered making valuable corporate data available to employees, business partners and customers. Over 36,000 organizations trust NetManage and its solutions to give access to corporate information.

Prior to NetManage, John worked in the Microsoft Solutions division of Quest Software headquartered in Irvine, CA (Formerly FastLane Technologies, Inc of Halifax, NS Canada). Working as a Territory Manager within the North East, Great Lakes, Mid West and Central United States John delivered Directory Management and Microsoft Active Directory Migration tools to Fortune 500 companies like Pfizer, General Motors, Ford Motor Co, and Dow Chemical.
